Swords, Knives, Reenactment

Welcome and **Thank you** for picking up our 2017 knife catalog! We've packed this catalog full of every knife and accessory we currently have available, but be sure to check our website for what's new as we are always adding new knives. Throughout this book you will find knives from all over the world; Casstrom of Sweden, Citadel of Cambodia, Kizlyar Supreme of Russia and Okapi of South Africa. Each of these makers has made their own mark in the world of knives and bring their own local perspective to making a good knife. No matter your choice, rest assured that we stand behind every knife we carry 100%. **Make your next knife, your best knife!**

## Our Brands

Based in the Lapland region of Sweden, Casstrom has been innovating the classic Scandinavian bushcraft knife designs since 2013.

Custom quality knives hand forged in the old way in a small workshop in Cambodia. Citadel's knives need to be held to be truly appreciated.

Now available in North America Okapi has been making the standard African pocket knife for over 100 years.

Made in the town of Kizlyar near the Caspian Sea, Kizlyar Supreme uses high end blade steels and grip materials to craft a superior knife.

The **Whisper** is our modern interpretation of the famed fighting knife of the samurai, the tanto. Designed by Jason Breeden and produced to perfection by Kizlyar Supreme of Russia the **Whisper** is an exceptional choice as a tactical EDC knife. The blade features a true tanto shape, capable of tackling the toughest daily tasks while providing the penetration power lacking in so many "western" tanto designs. The grip is milled G10 with nested stainless liners and features the famous diamond pattern seen in Japanese handle wrapping in reverse. The strong pocket clip rides deep and displays a Japanese Mon, or family crest. These powerful symbols were first used on the battlefields of Japan to distinguish each warring faction.

**Whisper EDC Folder - D2**  
**Black Ti w/ Red/Black (KK0118)**  
**Stone Washed/Black (KK0119)**  
MSRP: \$112  
Overall: 8 1/8"  
Blade Length: 3 3/4"  
Handle Length: 4 1/2"  
Weight: 4.4oz  
Blade Steel: D2  
Handle Material: G10

Kizlyar Supreme's **Biker X & Z** are an excellent choice for a longer blade EDC knife. The blade is deployed quickly with either the thumb stud or flipper. The thin, contoured G10 handle scales conceal the stainless frame liners, making the knife feel exceptional in hand. Jimping on the flipper and top of the spine increase blade control during precision tasks. Simple and well executed, what more is there to say?

**Biker Z - D2 w/ Black Ti (KK0134)**

**Biker X - D2 w/ Gray Ti (KK0144)**

MSRP: \$127

Overall: 8 5/8"

Blade Length: 3 5/8"

Handle Length: 5"

Weight: 4.9oz

Blade Steel: D2

Hrc Edge: 60-63 HRC

Handle Material: G10

Who needs assisted opening when you have a caged ball bearing system that rolls the blade out with the press of a finger? The Biker and Bloke knives got serious upgrades with this new system, consisting of several stainless steel ball bearings arranged around the blade pivot. The result is fast and silky smooth deployment with no springs to break, the best of both worlds.

**Bloke Z - D2 w/ Black Ti (KK0155)**  
**Bloke X - D2 w/ Black Ti (KK0152)**  
MSRP: \$127  
Overall: 8 7/8"  
Blade Length: 3 7/8"  
Handle Length: 5 1/8"  
Weight: 6.6oz  
Blade Steel: D2  
Hrc Edge: 60-63 HRC  
Handle Material: G10

Kizlyar Supreme's **Bloke** is, without a doubt, a big tactical folder. At just under 4" the wide hollow ground blade makes for a good cutter while still having enough meat behind the edge for heavy duty tasks. The thin G10 scales and stainless liners mean the knife is not much thicker than most smaller knives, and can carry well as a large every-day-carry option. The Bloke truly excels on the job site or in the back country. The pattern cut in the G10 is like glue when wearing gloves but not too aggressive for un-gloved hands during extended cutting sessions. Large jimping on the thumb ramp allows for choking up on the blade for precise cuts. The large pocket clip is reversible for tip-down carry in the pocket or on a belt.

# EDC FOLDERS

**Prime EDC Folder - D2**  
**Polished w/ Carbon Fiber (KK0107)**  
 MSRP: \$140  
**Black Ti w/ G10 (KK0106)**  
 MSRP: \$122  
 Overall: 8"  
 Blade Length: 3 1/2"  
 Handle Length: 4 1/2"  
 Blade Steel: D2

Kizlyar Supreme's **Prime** Folding Knife is a good all around EDC knife, having a blade large enough for most tasks. It just happens to look good while doing so! It is fairly lightweight and with a deep carry pocket clip will disappear in your pocket until needed. After receiving major upgrades to its design, Prime has become even more stylish and stronger than ever. The handle is made of elegant carbon fiber (KK0107) or shaped G10 (KK0106). The overall structure has been improved, the liner strengthened and steel bolsters received smoother lines. The clip was moved to the back of the handle with a new design in a shape of an arrow, looking out of the carrier's pocket it looks unusually stylish.

**Vega 440C**  
**Polished (KK0123)**  
**Black Ti (KK0122)**  
 MSRP: \$67  
 Overall: 8 1/4"  
 Blade Length: 3.6"  
 Thickness at Guard: 3.1mm  
 Blade Steel: 440C  
 Handle Material: Micarta

Kizlyar Supreme's **Vega** is a nice knife for every-day-carry purposes - it has a deep carry pocket clip, a very sharp blade and is quite compact and light for carrying around all day. Made from the well renowned 440C Stainless steel, the knife has a thumb disc for easy opening with a strong liner lock. The Vega handle features an unusual textile Micarta that besides the material's standard high durability offers a natural feel of textile, it has a nice warmth to it and provides a secure grip. The deep carry pocket clip is discreet and reversible.

"The knife is great, a good everyday carrier and very adept at most cutting chores. In the hand I found it comfortable and efficient. No doubt, I would recommend it!"  
John, Alberta Canada

**Zedd**

**Zedd EDC Flipper - D2 Satin (KK0174)  
w/ Black Ti (KK0175)**  
MSRP: \$120

**Zedd EDC Flipper - AUS-8 Satin (KK0172)  
w/ Black Ti (KK0173)**  
MSRP: \$110

**Zorg**

**Zorg EDC Tanto Flipper - D2 Satin (KK0226)  
w/ Gray Ti (KK0227)**  
MSRP: \$122

**Zorg EDC Tanto Flipper AUS-8 Satin (KK0224)  
w/ Gray Ti (KK0225)**  
MSRP: \$112

The tanto bladed **Zorg** (and it's drop point companion **Zedd**) is a true EDC work knife, light and thin enough to disappear in your pocket with the ergonomics and edge retention to keep working hard all day. One handed opening is simple with a flick of the flipper tab or in a more controlled fashion with the thumbstud. Cutouts for the thumb and index finger allow precision control with enough grip length to fill the hand. The blade thickness makes this a nice slicer, a perfect balance between toughness and utility.

G10 scales are 3D milled and feel great in the hand, with a middle swell that fits the palm very well. Stainless liners and a tough liner lock keep the blade open and secure, with a little jimping on the lock release for ease of closing while wearing gloves. Finally a pocket clip has been designed for superior retention and utility. Just enough of the grip is exposed to make deployment fast and reliable. With the integrated lanyard hole some paracord can be added to both personalize your knife and make extraction even faster.

Overall: 7 7/8"  
Blade Length: 3 3/8"  
Handle Length: 4 5/8"  
Weight: 5oz  
Handle Material: G10

The **Dream** is a knife with character, made for those valuing grace and practicality. It is the first knife from Kizlyar Supreme with a lockback, considered to be one of the world's most secure folding lock mechanisms. Dream's 4 1/8" blade is the longest in our folder line. Thanks to it's work properties, it will easily hold it's own against competition from large outdoor knives in tasks involving wood, food and game. At the same time the knife is beautiful – with a well shaped blade, finely processed green G10 handlescales and elegant arrow-shaped clip.

**Dream 440C Lockback Polished (KK0166)**  
**Black Ti (KK0167)**  
 MSRP: \$97  
 Overall: 9 1/4"  
 Blade Length: 4 1/8"  
 Handle Length: 3 1/8"  
 Weight: 6oz  
 Blade Steel: 440C  
 Handle Material: G10

Kizlyar Supreme **Ute**; might, reliability, beauty and most important - joy and comfort during work. To meet this goal came the Ute, a pickup which was born in Australia in 1951. It was made to meet the demands of farmers that wanted a vehicle to go to church in on Sundays and yet tough and rugged enough to haul on Mondays. Following the same ideology we created an EDC utility knife called Ute - powerful, reliable and comfortable at work that a user would not be ashamed to get out of his pocket and show off. In addition to the thick blade of high quality AUS-8 is a bottle opener and screw driver incorporated into the handle. The textured G10 handle provides a secured grip in the wettest conditions.

**Ute Utility Knife w/ Gray Ti Blue Scales (KK0110)**  
**Green Scales (KK0111)**  
 MSRP: \$67  
 Overall: 8"  
 Blade Length: 3 1/4"  
 Blade Steel: AUS-8  
 Handle: G10

**Gent Slip-Joint Knife: AUS-8 Satin (KK0165)**  
**Black Ti (KK0164)**  
 MSRP: \$52  
 Overall: 7 1/8"  
 Blade Length: 3 1/4"  
 Handle Length: 3 1/8"  
 Weight: 2.5oz  
 Blade Steel: AUS-8  
 Handle Material: Bone

The **Gent** slip joint folding knives highlight Kizlyar Supreme's quest to create and deliver a knife made to be at the side of the modern day gentleman. Their elegant craftsmanship in combination with classical traits and modern materials, all merge to create knives that are both a pleasure to use and fun to show off. Kizlyar Supreme's Gent is offered with a satin or black titanium coated blade with white bone handle.

**Hero 440C Linerlock Polished (KK0116)**  
**Black Ti (KK0117)**  
 MSRP: \$72  
 Overall: 7"

Blade Length: 3"  
 Handle Length: 4 1/8"  
 Weight: 4.2oz  
 Blade Steel: 440C  
 Handle Material: G10

Kizlyar Supreme's **Hero** EDC Knife is a good example of a knife that is well suited for the day to day demands of a pocket knife. It has nicely grooved handle scales made of strong G10 which allow for a very firm grip that along with thumb ramp jimping allows precise blade control. It has a tight, deep carry pocket clip that can be used to carry the knife on a pocket or a belt. Instead of the standard thumbstud Hero has an "eye" that is used for opening the folder. Many people find this to be a better and more reliable way to open a folding knife, and we think it looks pretty slick as well.

NEW

# OKAPI

Genuine Okapi are the preferred pocket knives throughout the wilds of Africa. Although sometimes better known for its more nefarious reputation, the Okapi knife is a working knife designed to be highly robust, practical and equally affordable. Made in South Africa since the late 80s using the same design and tooling that originated in Germany over 100 years ago.

Truly the leader of the pack, the **Okapi Lock Knife** (KO9070) is renowned with its crescent moons and three star inlays and ring. The distinct ratchetting sound when opening and closing is as much its trademark as its signature look. So notorious is this knife, that it has found its way in songs found in Reggae music. The 3 3/4" 1055 carbon steel blade features a unique drop point shape. The Okapi Locking Folder secured its place in knife history not only as a great EDC knife but as a bad boy blade. Also available in a black plastic handle version (KO9071).

All Okapi pocket knives feature chisel-ground 1055 carbon steel and are easy to sharpen at home or in the field. As with any high carbon steel a patina will form over time on the blade adding to the character of the knife.

**Okapi Lock Knife - Cherry w/ Inlay**  
KO9070 - MSRP: \$14.99

**Okapi Lock Knife - Plastic Handle**  
KO9071 - MSRP: \$9.99

Overall: 9"  
Blade Length: 3 3/4"  
Handle Length: 5 1/2"  
Weight: 2.4 oz  
Blade Steel: 1055

See page 38 for  
Okapi's line of  
Machetes and  
Agricultural  
Tools

# KNIFE & TOOL

**Big Sable Knife - Cherry w/ Inlay**  
KO19070 - MSRP: \$13.99

**Big Sable Knife - Plastic**  
KO19071 - MSRP: \$8.99

Overall: 9"  
Blade Length: 3 3/4"  
Handle Length: 5 1/2"  
Weight: 2 oz  
Blade Steel: 1055

**Baby Sable Slip Joint**  
KO19790 - MSRP: \$11.99  
Overall: 8"  
Blade Length: 3"  
Handle Length: 4 3/4"  
Weight: 1.7 oz  
Blade Steel: 1055  
Handle Material: Cherry

**Genet Slip Joint**  
KO197930 - MSRP: \$11.99

**Biltong Slip Joint**  
KO197940 - MSRP: \$9.99  
Overall: 6 3/4"  
Blade Length: 2 1/2"  
Handle Length: 4"  
Weight: 1.4 oz  
Blade Steel: 1055  
Handle Material: Cherry

**"This is a really cool knife that has a long history behind it. It is very durable, fun to deploy, and lightweight. "**  
AdventureCamping,  
YouTube

Okapi also makes a more pocketable range of slip-joint knives in a range of sizes. The blade snaps well in all three positions; open, half-stop and closed with a nice crisp pop from the tight backspring. A stainless bail loop replaces the lock-ring. The **Big and Baby Sable** are about the same size as the large Lock knife and available in stabilised Cherry or Plastic handles. Sporting much smaller blades the **Genet and Biltong** disappear in the pocket until needed. One aspect of these knives immediately appreciated is the weight in the pocket. Where else can you find a near 4" blade weighing only 2oz?

**Kukri Lock - Rosewood Scales**  
KC4029 - MSRP: \$199

**Kukri Lock - Buffalo Horn Scales**  
KC4028 - MSRP: \$209

Overall: 9 1/2"  
Blade Length: 3 7/8"  
Handle Length: 5 3/8"  
Weight: 10 oz  
Blade Steel: N690Co

The legendary Kukri blade shape lends itself to all manner of tasks, not just as a large fixed camp / fighting knife. The **Kukri-Lock** from Citadel utilizes this blade shape to great effect, retaining the slight recurve at the base as well as the belly out towards the tip. It's a large folder, best suited for a camping trip or on a hunt. The blade is hand crafted from Bohler N690Co stainless steel with Z40C13 stainless liner lock frame. This knife comes with Rosewood scales but polished horn is also available. Another option in a Kukri-esque blade shape is Citadel's **Phobos Back-Lock Folder** below. A heavy duty outdoor folder suitable for hard use in the back country.

**Phobos Back-Lock  
Outdoor Folder**  
KC4012 - MSRP: \$229

Overall: 9 5/8"  
Blade Length: 3 5/8"  
Handle Length: 5 1/2"  
Weight: 9oz  
Blade Steel: N690Co

**Husky - Rayskin Scales**  
KC4027 - MSRP: \$265

**Husky - Rosewood**  
KC4026 - MSRP: \$179

Overall: 9"  
Blade Length: 3 1/2"  
Handle Length: 5"  
Weight: 7oz  
Blade Steel: N690Co

Available in unique and extremely grippy rayskin or silky smooth rosewood, the **Husky** is ready to get the job done. The classic drop point blade design and ergonomic handle make this a real working knife. The blade spine and back spacer are hand engraved. The blade is hand crafted from Bohler N690Co stainless steel with Z40C13 stainless liner lock frame. The copper tubed lanyard hole includes a short leather lanyard.

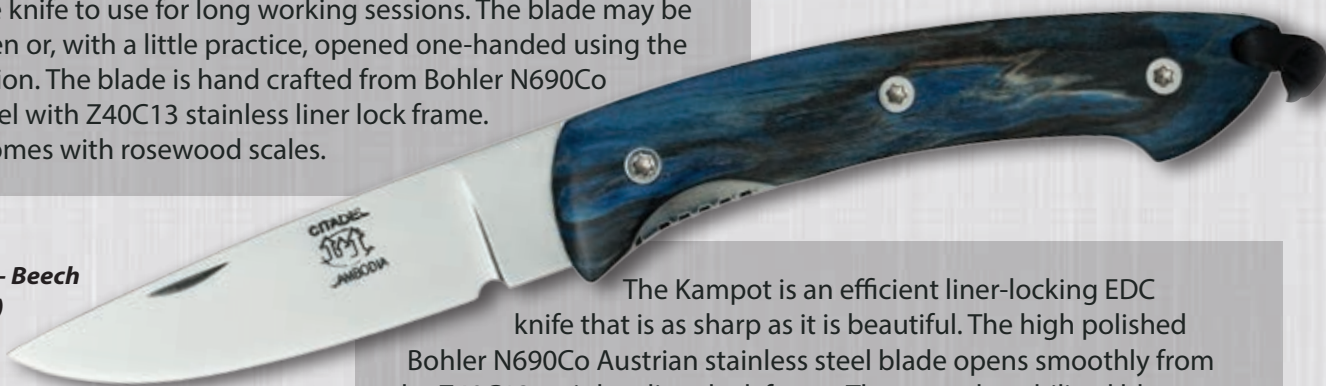

**Giaponino - Rosewood Scales**  
KC4024 - MSRP: \$139

Overall: 5 3/4"  
Blade Length: 2"  
Handle Length: 3 1/4"  
Weight: 4oz  
Blade Steel: N690Co

The Giaponino is a perfect three-finger EDC Folder that tucks away until needed. The scales though are thick enough to make it a truly comfortable knife to use for long working sessions. The blade may be plucked open or, with a little practice, opened one-handed using the tang extension. The blade is hand crafted from Bohler N690Co stainless steel with Z40C13 stainless liner lock frame. This knife comes with rosewood scales.

**Kampot Folder - Beech Scales (KC4033)**

MSRP: \$205  
Overall: 7 1/2"  
Blade Length: 3"  
Handle Length: 4 1/2"  
Weight: 3.5 oz  
Blade Steel: N690Co

The Kampot is an efficient liner-locking EDC knife that is as sharp as it is beautiful. The high polished Bohler N690Co Austrian stainless steel blade opens smoothly from the Z40C13 stainless liner lock frame. The smooth stabilised blue beech scales feel comfortable in your grip. The craftsmanship of this handmade beauty is visible from the immaculately carved back spring and beveled scale edges.

To use the word unique to describe the Leonardo by Citadel would be an understatement. Taking inspiration from Leonardo da Vinci's wings design, the troyeng (veined ebony) scales are amazingly ergonomic in the hand. The perfectly hand-carved wing scales are consistent from curve to curve. The 2 3/4" hawks-bill Bohler N690Co Austrian stainless steel blade releases easily with the thumb stud from Z40C13 stainless liner lock frame. The high polished back spring and liner locks shine beautifully between the ebony handle slabs. A padded nylon canvas pouch with embroidered Citadel logo is included.

**Leonardo Folder - Troyeng Scales**

KC4034 - MSRP: \$209  
Overall: 7 1/2"  
Blade Length: 2 3/4"  
Weight: 4.6oz  
Blade Steel: N690Co  
Handle Material: Troyeng

**Trident - N690Co - Bamboo**  
 KC4042 - MSRP: \$205

**Trident - Forged DNH7  
 Stabilised Spalted Scales**  
 KC4041 - MSRP: \$225

Overall: 8"  
 Blade Length: 3 1/4"  
 Handle Length: 4 1/2"  
 Weight: 4.5oz

The **Trident** is a graceful pattern, with a thin tip perfect for getting into tight spaces and a long cutting edge that makes short work of any cutting task. The bevel is highly polished and zero ground (no secondary bevel) creating a long lasting and extremely sharp edge. Subtle knurled jimping on the spine of the blade keeps the thumb in place without creating any hotspots. Truly a pocket knife that works as well as it looks! One version of the Trident (KC4041) boasts exceptional stabilised spalted handle scales making each one unique. Hand carved detail work on the spine and back spacer complete this collectible package. The model of Trident that has unique hard bamboo scales (KC4042) feels just as great in the hand. The large handle fills the hand nicely without taking up a lot of pocket room.

**NEW**

Citadel have outdone themselves once again with their **Roman** gentleman's pocket knife. The bevel is highly polished and zero ground (no secondary bevel) creating a long lasting and extremely sharp edge. The flats are untouched after the forging, display the *brut de forge* scaling left by the blacksmith.

The overall design displays a subtle forward curvature which acts similarly to a recurve blade in cutting tasks. The locking liner is stainless steel, with scales of a type of veined ebony wood called Troyeng or available in black Micarta with a pocket clip.

**Roman - Forged DNH7 - Troyeng**  
 KC4037 - MSRP: \$209

Overall: 8 1/2"  
 Blade Length: 3 3/4"  
 Handle Length: 4 5/8"  
 Weight: 5oz

**Roman - N690Co w/Clip - Micarta**  
 KC4036 - MSRP: \$185

The **Saigon** can either be plucked open or, with a little practice, opened one handed by the tang extension. The extension and back spacer are hand carved on the spine. The blade is hand crafted from Bohler N690Co stainless steel with Z40C13 stainless liner lock frame. This knife comes with the unique polished rayskin scales but rosewood is also available. A padded nylon canvas pouch with embroidered Citadel logo is included.

**Saigon - Polished Ray Skin Scales**  
(KC4019) MSRP: \$215

Overall: 6"  
Blade Length: 2 1/8"  
Handle Length: 3 1/2"  
Weight: 3.5oz  
Blade Steel: N690Co

**Saigon - Rosewood Scales**  
(KC4020) MSRP: \$155

Everyone has their own preferences, but for our money the **Monterey** is the perfect sized EDC knife. It sports a 3" blade with a handle in either Rosewood or Bone scales. The full flat grind and convex edge make this one a serious slicer! The blade is hand crafted from Bohler N690Co stainless steel with Z40C13 stainless liner lock frame. A gentleman's knife that will perform with the best of them.

**Monterey - Bone Scales**  
KC4030 - MSRP: \$179

Overall: 9"  
Blade Length: 3 1/2"  
Handle Length: 5"  
Weight: 7.4oz  
Blade Steel: N690Co

**Monterey - Rosewood**  
KC4031 - MSRP: \$169

**" Citadel knows what it's doing when it comes to building knives. The fit and finish on these folders is impeccable."**

Tim Stetzer,  
Knives Illustrated

CITADEL  
KNIVES AND SWORDS

Thoughtfully designed and well executed, the **Chantha** is a knife you'll love to show off. Citadel's Chantha knife is designed with everyday tasks in mind, the blade is wide with a swedge making for a nice slicing point. When pressed past opening packages the thumb ramp with rounded jimping comes in handy to enhance grip and control. The handle is just the right size to fill the hand and is comfortable in long whittling sessions.

The blade is hand crafted from Bohler N690Co stainless steel with Z40C13 stainless liner lock frame. This knife comes in nice Ebony wood scales but smooth Bone and Micarta with pocket clip are also available. A stout lanyard ring is cut into the back spacer, this keeps the lanyard tucked away until needed.

**Chantha EDC Knife  
Bone Scales (KC4022)**

MSRP: \$179

**Ebony Wood Scales (KC4023)**

**Micarta Scales w/ Clip (KC4038)**

MSRP: \$175

Overall: 6 7/8"

Blade Length: 2 3/4"

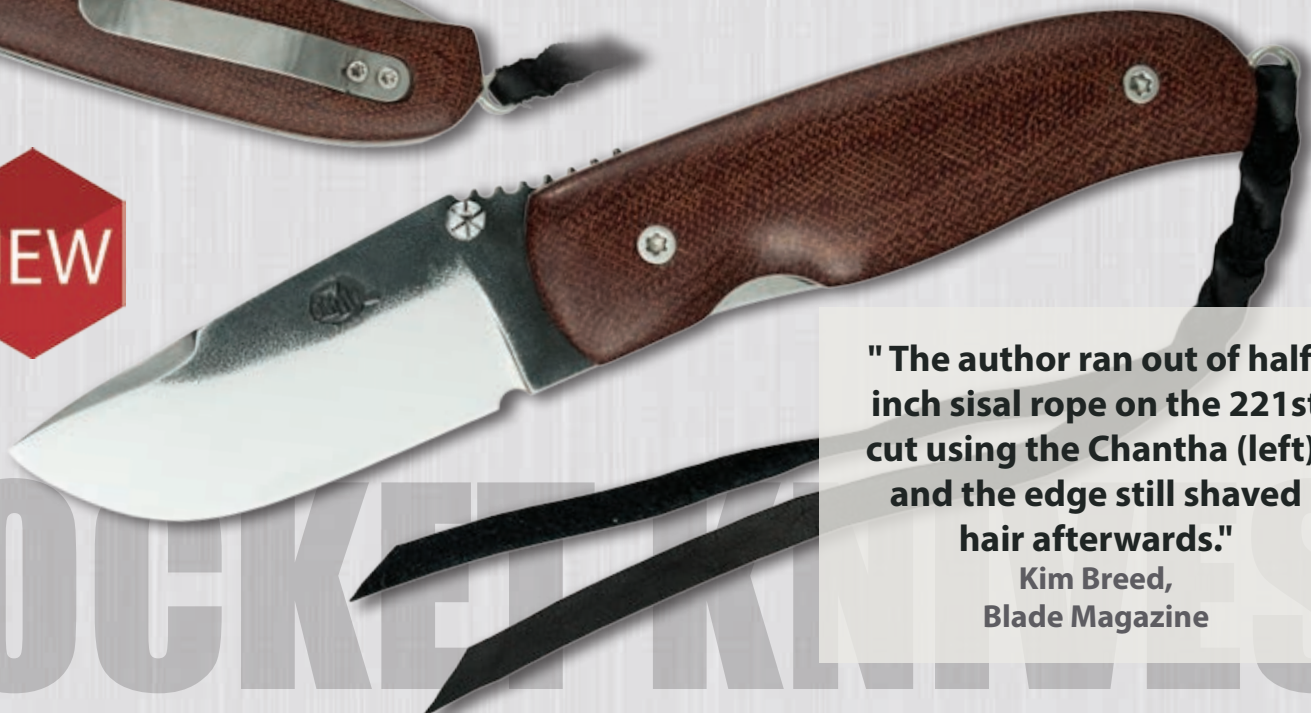

Handle Length: 4"

Weight: 5oz

Blade Steel: N690Co

NEW

**"The author ran out of half-inch sisal rope on the 221st cut using the Chantha (left), and the edge still shaved hair afterwards!"**

**Kim Breed,  
Blade Magazine**

**Higonokami - Buffalo Horn Handle (KC4025)**

MSRP: \$129  
Overall: 7"  
Blade Length: 2 1/2"  
Handle Length: 4 1/8"  
Weight: 2.4oz  
Blade Steel: DNH7  
Handle: Buffalo Horn

Friction folders are some of the oldest designs in folding knives, going back to the very first ever conceived. They also happen to be legal to carry just about anywhere today. With no lock the blade is held open with the thumb resting on an extension of the blade's tang. Simple and elegant, this selection of friction folders from Citadel are highly collectible.

**Phan Thiet Friction Folder Horn Scales (KC4043)**

MSRP: \$119  
Overall: 7"  
Blade Length: 3"  
Handle Length: 4"  
Weight: 3oz  
Blade Steel: DNH7

**Yaku Saku Friction Folder w/ Belt Sheath (KC4021)**

MSRP: \$235  
Overall: 7 1/4"  
Blade Length: 2 5/8"  
Handle Length: 4 3/8"  
Weight: 2.7oz  
Blade Steel: AISI420  
Handle Material: Palisander

CITADEL  
KNIVES AND SWORDS

**Vannak III - Forged Hunter**

KC4017 - MSRP: \$185  
Overall: 7 1/8"  
Blade Length: 3"  
Handle Length: 4"  
Weight: 4.5oz  
Blade Steel: DNH7  
Handle Material: Palisander

Hunter, Utility, Outdoor, Fixed EDC - whichever you call it the **Vannak III** is up to the task. This is one of those 'just right' knife designs, no more and no less. Just enough blade length to get the job done and stay sharp doing it. A handle at just the right length with a lower guard big enough to keep your hand in place but small enough not to get in the way. The Palisander wood scales are contoured to fit the hand just so for long-term use with no fatigue. It's a working knife that just happens to look and feel like a high-end custom. A full grain leather belt sheath is included.

This double edged sleek and deadly beauty embodies function and versatility. Whether you tie it to the end of a staff to use it as a boar hunting knife or simply draw it to euthanize your prey, the **TTY Dagger** will perform efficiently. The 7 1/2" hand forged and differentially hardened DNH7 blade features a sloping central ridge that tapers to both edges. A full grain leather belt sheath is included featuring Citadel's unique bone button and loop fastener.

**Dagger TTY**

KC4039 - MSRP: \$275  
Overall: 13 1/2"  
Blade Length: 7 1/2"  
Handle Length: 5"  
Weight: 10.2 oz  
Thickness at Guard: .24"  
Blade Steel: DNH7  
Handle Material: Palisander

NEW

**NEW**

**Caspian Bowie Hunter  
(KK0007)**

MSRP: \$110  
Overall: 10 1/2"  
Blade Length: 5 1/2"  
Handle Length: 4 7/8"  
Blade Steel: AUS-8  
Handle Material: Walnut

Like the **Caspian Sea**, this bowie knife unites the best of the East and West in the way of key knife features. The clip point blade shape resembles that commonly known in America for its usefulness in cutting and cleaning wild game. The full tang handle features a Russian root-wood Walnut as strong as the AUS-8 satin, stainless steel blade. The choil and finger guard allow for safe and tricky cuts. The premium dangler-style leather sheath that is included displays the clever Russian craftsmanship allowing for high or low carry with its double loop design.

The Kizlyar Supreme **Safari** might look like a monster chopper, but it's actually a well balanced slicer. The thin 6 1/4" blade and hollow grind make for surprisingly precise handling in such a long blade. The blade features a slight recurve, a big belly and a thin point. The AUS8 stainless steel takes a keen edge and is easy to touch-up in the field. A kydex sheath is included with a Removable/Rotatable clip.

**Safari AUS-8 Hunter  
Black Ti w/ Green Handle (KK0054)  
Satin w/ Black & Gray (KK0053)**

MSRP: \$147  
Overall: 12"  
Blade Length: 6 1/4"  
Handle Length: 5 1/2"  
Weight: 7.8oz  
Blade Steel: AUS-8  
Handle Material: Micarta

**Skizlyar Supreme**

**Enzo D2**  
**Satin (KK0069)**  
**Black Ti (KK0070)**  
MSRP: \$145

Overall: 9 3/4"  
Blade Length: 5 1/4"  
Handle Length: 4 3/4"  
Weight: 7.1oz  
Handle Material: Micarta

The **Echo** is a reliable and handy workaholic full tang fixed blade knife. The knife excels at most carving tasks with a sharp penetrating tip suitable for wood or food prep. The blade shape has proven itself time and again as a serious task master. The 3D Micarta handle features individual finger grooves for a firm grip with enough room to accommodate gloves. The **Enzo** has a slightly longer blade than the Echo and is even better at piercing due to its narrower tip aided by a false-edge.

Both knives are available in AUS-8 Stainless or D2 Tool Steel with Satin or Black Ti Coated finishes. The included kydex sheath has a rotatable and removable clip that accomodates multiple carry positions.

**"The Enzo is a good hunting and camp knife, and would be right at home out in the woods field-dressing your whitetail deer or cutting up meat & taters by the campfire."**  
Russ Chastain

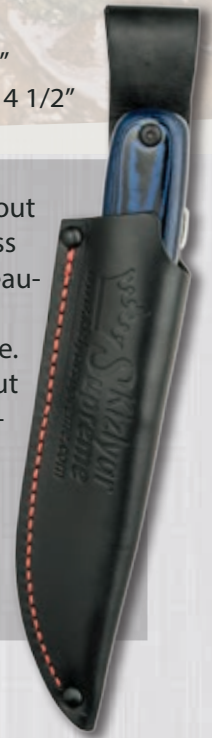

NEW

**Colada Hunter**  
**CPM S35VN w/ Micarta (KK0114)**  
MSRP: \$175  
**AUS-8 w/ Walnut (KK0113)**  
MSRP: \$95

Overall: 8 3/8"  
Blade Length: 4"  
Handle Length: 4 1/2"  
Weight: 6oz

The **Colada** represents beauty in simple clean lines without un-necessary features. The smooth lines of the 4" stainless steel blade flows evenly over the rounded handle. Almost too beautiful to use but the Colada is where form and utility meet. Although it is small, its performance remains high. It is versatile in function and beautiful in style. The 4" long blade is a drop point profile with a large swedge, a basic design, centuries old but timeless. It is for those who require a great, small scale all rounder with the capability to prepare food, kindling for a fire and process game up to a medium size. A classic design boasting a gorgeous root-wood walnut handle from the Caucasus Mountains of Russia featuring AUS-8 Stainless Steel or with handle scales crafted from tough Blue/Black Layered Micarta and premium US made CPM S35VN Stainless Steel. Both versions supplied with a top grain leather sheath with a dangler style belt loop.

**Black Ti (KK0048)**  
MSRP: \$127

Overall: 7 3/4"  
Blade Length: 3 1/2"  
Handle Length: 4 1/4"  
Weight: 4.4oz  
Handle Material: Micarta

Overall: 7 7/8"  
Blade Length: 3 3/8"  
Handle Length: 4 5/8"  
Weight: 5oz  
Handle Material: Micarta

The Kizlyar Supreme **Nikki** and **Santi** belong to the Hunting Series but also performs well for any general day-to-day task. The full tang blade design has a curving edge with a good amount of belly and flat back. Jimping/knurls on the spine allow great control over the blade. The high hollow grind makes the knife an excellent slicer as well.

Overall: 6 3/4"

Blade Length: 2 3/8"

Weight: 5.5oz

**Safari** - a small but competent knife from Casström! Design by renowned English custom knife maker Alan Wood known for his hand made Bushcraft and Deer Stalking knives. The blade is made using a full-tang construction, features a tapered tang and is made in hollow-ground 12c27 Swedish Stainless steel (HRC 59). Comes with a sturdy leather sheath. The design in combination with the materials used makes this a very beautiful but highly resilient piece of kit. Ideal as a small skinner for small deer and as a small belt knife for safari hunters. The designer, Alan Wood, has been a professional knifemaker since 1985 and has become the UK's most emulated craftsman due to his practical and attractive designs. Also well known for his collaboration with survival expert Ray Mears.

**Casström**

The Casström **Field Saw** allows you to open the chest cage and pelvic bone on larger game safely and quickly without puncturing the gut or making unintended damage. The end of the blade has been rounded off and features a safety tip. The 4 1/4" saw blade is made using a high quality stainless blade steel that makes the saw very durable but also easy to clean in a hygienic way. To change the blade, simply unscrew the four security screws/bolts using a 2mm hex bit, separate the two handle scales and replace the blade. The saw comes with a sturdy Cordura nylon belt pouch.

**Black Ti (KK0239)**  
**Satin (KK0240)**  
MSRP: \$185

Overall: 14"  
Blade Length: 8 5/8"  
Weight: 11.5oz  
Handle Material:  
Kraton/ABS

**Senpai Tactical Tanto**  
**Black Grip (KK0217)**  
**OD Green (KK0218)**  
MSRP: \$150

Overall: 12"  
Blade Length: 6 3/4"  
Handle Length: 5 1/4"  
Blade Steel: AUS-8  
Handle: Kraton/ABS

The **Sensei** knife connects the beauty of the Oriental traditions with Russian practicality. Functionally it combines a camp knife, a machete and a Japanese tanto (long knife). The tanto ground blade is 8 5/8" in length with a thickness of 4.6 mm, it just begs to be put to work. When in hand it feels like a small sword and radiates reliability and power. The weight balance is shifted slightly towards the blade, which allows slicing, cutting and hacking with comfort. If you are looking for a trailing point fixed blade tactical tanto with a flash of Asian flair, look no further than the **Senpai**. The subdued tanto point belies its powerful grind lines of the 6 3/4" blade.

Full-tang design guarantees strength. Special heat-treatment is done to give the blade reliability and durability at any workloads. Non-slippery soft Kraton handle (with hard ABS underneath) with removable scales and full-sized guard guarantee comfortable and secure grip.

Both Sensei and Senpai include light PA sheaths featuring a rotatable clip on a highly versatile rotatable (SP) platform that can be installed in a number of ways on different areas of the long sheath to make sure the user gets the most comfortable carry option. The sheath is fully MOLLE compatible.

**Alpha D2 Tool Steel**  
**Satin** (KK0004)  
**Serrated w/ Black Ti** (KK0003)  
**Gray Ti** (KK0006)  
 MSRP: \$175

**Alpha AUS-8 Stainless**  
**Serrated - Satin** (KK0005)  
 MSRP: \$155  
**Gray Ti** (KK0001)  
**Satin** (KK0002)  
 MSRP: \$150

Overall: 11 1/4"  
 Blade Length: 6"  
 Handle Length: 5 1/4"  
 Handle Material: Kraton/ABS

The Kizlyar Supreme **Alpha** is part of the Tactical Echelon Series. The narrowing tip of the blade allows for great penetration ability. Just like other knives in the Tactical Echelon Series, the Alpha has the same handle design with highly ergonomic features. The soft kraton used in the handle scales works perfectly in bare hands or with tactical gloves and reduces slippage in wet conditions significantly. The tip of the handle ends in a glass-breaker that can be handy in emergency situations.

Numerous accessories that are sold separately include a MOLLE belt that can be used for a quieter and even more comfortable knife carry on a thigh, also there is a choice of a few MOLLE-compatible pouches that can be installed directly onto the sheaths to carry a multi-tool, folding knife, sharpener, flashlight, survival kit, etc.

**Ti Coated Tactical Knives come w/ Black Nylon Sheaths, Satin with Camo as shown**

## Aggressor

## Croc

**Aggressor AUS-8**  
**Black Ti** (KK0013)  
**Satin** (KK0014)  
 MSRP: \$150

**Aggressor D2**  
**Black Ti** (KK0015)  
**Satin** (KK0016)  
 MSRP: \$175

Overall: 11 1/4"  
 Blade Length: 6"  
 Handle Length: 5 1/4"  
 Weight: 9.9oz  
 Handle: Kraton/ABS

**Croc AUS-8**  
**Black Ti** (KK0009)  
**Satin** (KK0010)  
 MSRP: \$150

**Croc D2**  
**Black Ti** (KK0011)  
**Satin** (KK0012)  
 MSRP: \$175

Overall: 11 1/4"  
 Blade Length: 6"  
 Handle Length: 5 1/4"  
 Weight: 9 oz  
 Handle: Kraton/ABS

The **Aggressor** was designed to satisfy the needs of special service units and with those strict requirements mean it also performs very well in general purpose tasks. The **Croc** is slightly less aggressive-looking compared to other knives in the Tactical Echelon series, although no less outstanding. The shallow and slightly concave sabre grind, which starts almost at the spine of the blade makes for a great cutting blade.

All Tactical Echelon series knives are designed to be reliable and functional with full-tangs and a simple, strong structure. The handle is made of two layers, comprising of soft Kraton upper and ABS underlay. This smart combination allows for all the grippiness of soft Kraton and the strength of ABS. The available steels AUS-8 (58-60 HRC) and D2 (60-63 HRC) make a great combination of edge retention and ease of sharpening.

**Ti Coated Tactical Knives include Black Nylon Sheaths as shown, Satin with Camo**

- Delta AUS-8 Stainless Black Ti* (KK0206)
- Satin* (KK0207)

 Blade Length: 6"  
 Handle Length: 5"  
 Weight: 9.9oz  
 Handle Material: Kraton/ABS

**" I have little doubt that this knife could make the trip with you to Hell and back."**

**Survivalkraft, YouTube**

Kizlyar Supreme's **Delta** tactical knife is different from the Alpha knives by having a broader harpoon style tip. All Tactical Echelon knives feature a highly versatile MOLLE compatible sheath that can be attached to almost anything. The sheaths are designed specifically for the series and the three point locking system holds the knives securely enough to allow for secure tip up carry even during strenuous activity.

The available steels AUS-8 (58-60 HRC) and D2 (60-63 HRC) make a great combination of edge retention and ease of sharpening.

Handle Length: 5"

Weight: 10oz

Handle: Kraton/ABS

**Trident**

**Intruder**

With its double guard design, the Kizlyar Supreme **Trident** tactical knife (top) can be pushed to the next level. All Tactical Echelon knives have been highly praised by the military personnel in extensive testing and day-to-day use because they provide comfortable and secure carry exactly where and how the soldiers prefer, in addition to fast knife deployment and strength that can be relied upon. As with all Tactical Echelon knives an exceptional sheath in black nylon (Ti Coated Blades) or Camo pattern (Satin finish blades) is included.

The flat ground and well-balanced 440C stainless steel blade makes the **Intruder** exceptionally reliable in the field with a low maintenance requirement. Light and durable MOLLE compatible Kydex sheath features a highly versatile multi-position platform with a rotatable clip, allowing a variety of carry options; horizontal, vertical and several angled positions are possible.

In developing the Intruder a significant role was played by members of the leading Russian knife forum rusknife.com. Especially A. A. Mak; a respected defense industry professional, collector and researcher of short-bladed weapons, author of a number of books on military knives and blade weapons. And also D. E. Samsonenko, Lt. Col. of the Russian Internal Police in retirement and knife expert.

 KK0041 - MSRP: \$150  
 Overall: 11  
 Blade Length: 5 3/4"  
 Handle Length: 5"  
 Weight: 9 oz  
 Blade Steel: AUS-8  
 Handle Material: Kraton

**Centurion** is a powerful knife equally suitable for demands and unpredictability of tactical operations as well as tough requirements of experienced outdoorsmen. **Dominus** was created for the Ministry of Emergency Situations of Saint-Petersburg whose members were impressed with Viluy concept and asked us to combine its versatile Kraton handle with the powerful blade of Maximus and add serrations important for their emergency operations. One needs to take either knife in their hand just for a few seconds to immediately understand how comfortable the knife is and how well it behaves in various grips. A modified version of our great Tactical Echelon series sheath that features full MOLLE compatibility and allows various attachment options is included.

**Aggressor**

**Alpha / Delta**

**Trident**

**Tactical Steel Trainers**  
**Aggressor** - KK0160  
**Alpha/Delta** - KK0162  
**Trident** - KK0163  
MSRP: \$50

The **Aggressor, Alpha/Delta and Trident Trainers** are a blunt safety knife that very closely matches the design, weight and feel of the original tactical knives. The sheath and handle scales are exactly the same, making training exercises as close as possible to the real deal.

- Safe Rounded Corners
- Accurately Weighted for Effective Training
- Fits all Tactical Echelon Sheaths

**Amigo X**

**OK0236 Carry Clip**  
 MSRP: \$20 (Page 45)

Kizlyar Supreme's **Amigo** series of Neck Knives have been extremely popular, and it's easy to see why. Premium steels in an exceptionally light, thin and easy to carry profile makes for an extremely versatile fixed-blade knife for every day carry. The **Z** model features a full flat ground leaf-shaped blade while the **X** has an upswept saber ground sheepsfoot profile. Thinner than the competition the included G10 sheath is durable and secure.

An optional carry clip (OK0236) is available turning this neck knife into one of the most versatile fixed blade knives we've ever seen! See page 45 for more details.

Blade Length: 4 1/4"  
Handle Length: 4 1/4"  
Weight: 6.7 oz

Our Kizlyar Supreme **Throwing Knives** were developed and improved to their highest potential over the years by the fathers of the Russian knife throwing school, the most prominent is still grandmaster V. S. Kovrov, who is their original designer. Nothing is insignificant here: grip features and control of the knife, weight, surface finish, heat-treatment, proportions, aerodynamical properties - all these make a genuine throwing knife different from a standard knife. Professional throwing knives do not have thin parts or edges like standard knives have because they would break very fast. In addition to this, the throwing knives are hardened at around 42-45 HRC to guarantee they will not break after years of throwing.

We offer several shapes and sizes to accommodate the most discerning aficionado.

**Survivalist Z**  
**AUS-8 Gray TI (KK0074)**  
**AUS-8 Black TI (KK0076)**  
 MSRP: \$230

**D2 Gray TI (KK0078)**

 MSRP: \$255

Overall: 12 3/8"  
 Blade Length: 7 1/4"  
 Handle Length: 5 1/4"  
 Weight: 13.4oz

**Survivalist Z**

Kizlyar Supreme's Hollow Handle Survival knives, **Survivalist X & Z**, features a large powerful blade with thickness of around 5mm. The size and weight of the knife allow performing a large range of tasks. The blade has a protective lower guard to shield the user from the very sharp edge and a bit of jimping on the spine for better control over the heavyweight blade. The upper and lower guard are drilled and chamfered for fastening a lanyard as needed. The "Survivalist Z" features the same blade but with a deep fuller to lighten the overall weight and partial serrations to aid in cutting rope or other fibrous material.

The hard-wearing Dural Aluminum handle is securely connected to the blade. A common point of weakness in hollow handle survival knives, Kizlyar Supreme's attachment method is a superior design that has passed numerous strength tests. Inside the Dural handle there is a basic survival kit that can be modified to suit the user's needs and experience. A MOLLE compatible sheath is included.

**Survivalist X**

**"Within an hour of playing with the Survivalist X, I knew this is a well-built knife, meant to be used."**

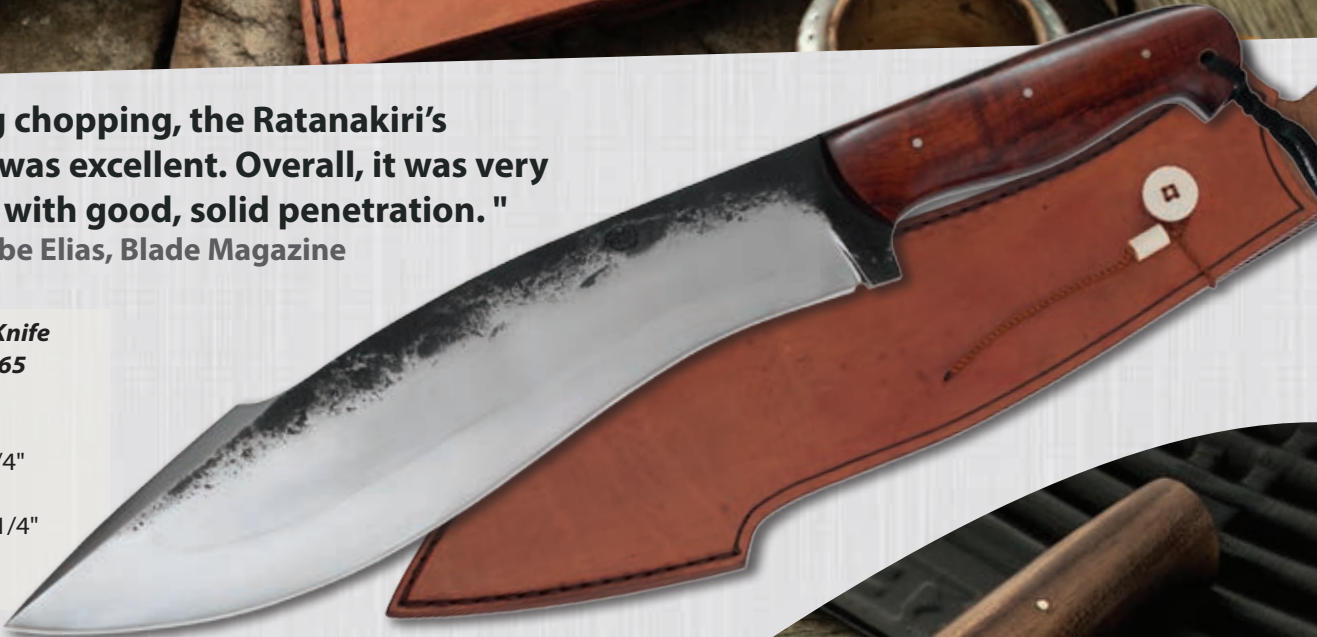

**Luke Causey,  
 Woods Monkey**

**Ratanakiri Camp Knife**  
**KC4013 - MSRP: \$375**  
Overall: 15 1/2"  
Blade Length: 9 3/8"  
Handle Length: 6 3/4"  
Weight: 1lb 2oz  
Blade Steel: DNH7  
Handle Material: Rosewood

**"During chopping, the Ratanakiri's performance was excellent. Overall, it was very responsive with good, solid penetration."**  
**Abe Elias, Blade Magazine**

**Almogovar Camp Knife**  
**KC4007 - MSRP: \$465**  
Overall: 18"  
Blade Length: 12"  
Handle Length: 5 3/4"  
Weight: 1lb 10oz  
Point of Balance: 2 1/4"  
Blade Steel: DNH7  
Handle: Palisander

This selection of large camp knives from Citadel are hand forged from high-carbon DNH7 steel and differentially hardened (using the techniques learned from decades of making exceptional samurai swords) to make a fine working knife. Top grain leather sheaths and high-end scale materials complete the package. More related to custom knives than production, these blades are sure to impress the most discerning knife aficionado. A padded and zippered embroidered pouch is included with each knife.

**Parang Jungle Knife**  
**KC4006 - MSRP: \$425**  
Overall: 18 7/8"  
Blade Length: 13 3/4"  
Handle Length: 5 1/4"  
Weight: 15oz  
Blade Steel: DNH7  
Handle Material: Palisander

CITADEL  
KNIVES AND SWORDS

**Vannak V Utility Knife**  
**KC4018 - MSRP: \$175**  
Overall: 5 3/4"  
Blade Length: 2 3/8"  
Handle Length: 3 1/8"  
Weight: 3.4oz  
Blade Steel: DNH7  
Handle Material: Palisander

**Trondheim EDC Belt Knife**  
**KC4010 - MSRP: \$155**

Overall: 5 7/8"  
Blade Length: 2 1/2"  
Handle Length: 3 1/8"  
Weight: 3.8oz  
Blade Steel: DNH7  
Handle Material: Rosewood

**Toucan Utility Knife**  
**KC4005 - MSRP: \$195**

Overall: 9 1/4"  
Blade Length: 4"  
Handle Length: 4 1/2"  
Weight: 10oz  
Blade Steel: DNH7  
Handle Material: Palisander

The high carbon steel **Vannak V** is a handy fixed blade knife, small enough for delicate work with an edge and shape that also lends itself to hard work when needed. Citadel's **Trondheim** Belt Knife gets a lot of cutting performance out of a small knife that's light enough to forget about until needed. The hardwood handle scales have a nice radius for a comfortable grip and the back of the tang is slightly jimped for increased control. A copper lined lanyard hole allows for a wide range of personalization with leather strips or cordage. **Toucan** features a pistol style grip of highly figured Palisander wood that transitions from an oval to nearly full round at the butt designed for hours of comfortable use.

The high carbon steel blade is hand forged from imported DNH7 steel and differentially hardened in the Japanese style. This hardening process creates a hard, durable edge and a softer more resilient spine and tang. The blade is sharpened to a full convex profile which greatly increases the durability of the hardened edge. Typically a leather strop is all that is needed for sharpening.

**Gurkha Kukri**

**Gurkha Kukri**  
 KC4009 - MSRP: \$415  
 Overall: 13 3/4"  
 Blade Length: 8 1/4"  
 Weight: 18.5oz  
 Blade Steel: DNH7  
 Handle Material: Palisander

Kukri are adept at many different tasks depending on the design, light and fast for a primary fighting knife or thick and heavy for back-woods bushcraft. Citadel's versions take a more utilitarian approach, hitting the sweet spot right in the middle of these two extremes. Useful around the camp or on a hunt, the knife can also be quite effectively pressed into fighting service if needed.

The high carbon steel blade is hand forged from imported DNH7 steel and differentially hardened in the Japanese style. This hardening process creates a hard, durable edge and a softer more resilient spine and tang. The blade is sharpened to a full convex profile which greatly increases the durability of the hardened edge.

A full grain leather belt sheath is included featuring Citadel's unique button and loop fastener. This system securely holds the knife in place but can be broken easily enough in the event the knife needs to be removed quickly for an emergency.

**Everyday Kukri**  
 KC4008 - MSRP: \$195  
 Overall: 10"  
 Blade Length: 4 1/8"  
 Handle Length: 5 1/2"  
 Weight: 10oz  
 Blade Steel: DNH7  
 Handle Material: Palisander

**Savage D2**  
**Satin** (KK0031)  
**Black Ti** (KK0032)  
 MSRP: \$162

**Savage AUS-8**  
**Satin** (KK0029)  
**Black Ti** (KK0030)  
 MSRP: \$142

Overall: 10 1/4"  
 Blade Length: 5 1/4"  
 Handle Length: 5"  
 Weight: 8.6oz

Kizlyar Supreme **Savage** is a stylish, sleek design that perfectly blends with its outstanding functionality. The knife is designed for a wide range of outdoor tasks and is quite universal.

Balance of the knife is located at the front finger groove allowing for precise blade control. The 3D textured G10 handle feels great in hand, giving just the right amount of grip and rounded off in all the right places for no hot spot chopping duty. Two lanyard pins complete an exceptionally ergonomic handle.

**Hanwei Survival Kukri**  
 KH2491 - MSRP: \$250

Overall: 17 3/8"  
 Blade Length: 12 1/4"  
 Weight: 1 lbs 7oz  
 Point of Balance: 2 1/4"  
 Blade Steel: 5160

Freed from strict tradition Hanwei has tasked themselves with designing a new modern classic **Survival Kukri**. They've kept the shape, the balance and the high carbon steel but the rest is substantially upgraded. The heat-treat is now precisely controlled pulling every ounce of performance out of the forged 5160 spring steel, a steel so well regarded in the knife community it is often used for ABS performance test knives. The result holds an edge exceptionally well with a spine soft enough to absorb the stress of repeated impacts. The grip is the biggest change from tradition, and the most welcome. The pommel and guard are stainless steel while the grip is injection molded into a grippy but comfortable pattern. The sheath is a multi-layer design, with an ABS insert and sturdy nylon shell. Multiple attachment points and carry positions are possible.

**NEW**

**Vendetta D2**  
**Satin** (KK0223)  
**Black Ti** (KK0222)  
 MSRP: \$167

**Vendetta AUS-8**  
**Satin** (KK0221)  
**Black Ti** (KK0220)  
 MSRP: \$152

Overall: 10 1/4"  
 Blade Length: 5 1/4"  
 Handle Length: 5"  
 Weight: 9.9oz

"The Kizlyar Supreme Vendetta is a very capable, full tang survival knife from Russia." Survival on Purpose, YouTube

The **Vendetta** is just the knife for that deep backcountry trip. The complex grind pattern of the Vendetta blade is all about function. The early recurve excels at quick pull cuts and bushcrafting tasks such as making feather sticks while the forward belly is large enough for slicing and the tanto-ish style point is exceptionally strong. The slight forward balance makes chopping tasks a breeze. Kizlyar Supreme's G10 pattern is like glue in the hand without being too aggressive for extended cutting sessions. The knives of the Outdoor Series are supplied with fully compatible MOLLE sheaths that provide very secure knife retention with three securing points.

**S Sturm AUS-8**  
**Satin w/ OD Green Scales** (KK0027)  
**Satin w/ Black Scales** (KK0025)  
 MSRP: \$145

Overall: 9 7/8"  
 Blade Length: 4 1/4"  
 Handle Length: 5"  
 Weight: 8 oz  
 Blade Steel: AUS-8  
 Handle: Kraton/ABS

Smooth in the hand and quick in the wrist, the **Sturm** is a cold weapon with a sharp focus and resilient construction. The 4 1/4" matte AUS-8 stainless steel blade features a trailing point tip and notched spine for thumb placement. The Kraton handle grips soft in your hand. At 9 7/8" overall, the length makes the Sturm a very versatile implement in a tactical situation. The light PA MOLLE compatible sheath features a rotatable clip on a highly versatile rotatable SP platform (OK0235 - page 45) that can be installed in a number of ways to make sure the user gets the most comfortable carry option.

**Maximus D2**  
**Black Ti (KK0019)**  
**Satin (KK0020)**  
MSRP: \$170

**Maximus AUS-8**  
**Black Ti (KK0017)**  
**Satin (KK0018)**  
MSRP: \$152

Overall: 10 3/4"  
Blade Length: 5 1/2"  
Handle Length: 5 1/4"  
Weight: 9.9oz

The powerful, wide blade of the **Maximus** features a high slightly concave grind with a short false edge at the tip to allow better penetration. The fuller running 3/4 the length of the blade lowers the weight while keeping the spine thick.

The handle provides a secure grip in either hand thanks to the textured G10 and ergonomic curves with or without gloves. The included PA Fiber and Nylon sheath provides several carry options including MOLLE compatibility and several lashing points. The knife locks into place for tip up or down carry.

**Legion D2**  
**Satin (KK0024)**  
**Black Ti (KK0023)**  
MSRP: \$170

The **Legion's** blade is constructed in a way to achieve the best balance between strength of the tip and its penetrating ability. The blade is around 4.5 mm thick which ensures the knife's strength in lateral loads and provides the necessary weight for effective use.

The handle provides a secure grip in either hand thanks to the textured G10 and ergonomic curves with or without gloves. The included PA Fiber and Nylon sheath provides several carry options including MOLLE compatibility and several lashing points. The knife locks into place for tip up or down carry.

**Legion AUS-8**  
**Satin (KK0022)**  
**Black Ti (KK0021)**  
MSRP: \$152

Overall: 10 3/4"  
Blade Length: 5 1/2"  
Handle Length: 5 1/4"  
Weight: 9.6oz

**Urban D2**  
**Stonewash (KK0231)**  
**Black Ti (KK0230)**  
 MSRP: \$145

**Urban AUS-8**  
**Stonewash (KK0229)**  
**Black Ti (KK0228)**  
 MSRP: \$122

Overall: 8"  
 Blade Length: 3 3/4"  
 Handle Length: 4 1/4"  
 Weight: 4.75 oz

The **Urban's** wide, slightly hollow ground blade is a good compromise for slicing and general use tasks. The wide belly and slight drop point make for an exceptional field dress knife, cardboard slicer, apple peeler or whatever task is at hand. A slight thumb ramp gives precise point control for fine work.

The handle features layered micarta scales that have been 3D sculpted for an incredibly comfortable grip. A molded kydex sheath is included that allows high or low carry options.

The Kizlyar Supreme **Kid** is a compact size knife with a nicely designed ergonomic handle made of durable Micarta. Despite the name and size the Kid is a lot of knife in a small package. Lightweight and easy to carry all day in the backcountry it will be up to whatever task you throw at it and feel good in hand while doing it.

The blade is made of very well balanced 440C steel. 440C stainless is considered one of the best knife steels for modern high-quality knives for its high wear resistance, high durability, good corrosion resistance and ease of sharpening.

**Kid 440c**  
**Satin (KK0082)**  
**Stonewash (KK0083)**  
 MSRP: \$132

Overall: 8 1/8"  
 Blade Length: 3 1/2"  
 Handle Length: 4 3/4"  
 Weight: 6.3oz

# OKAPI

NEW

Whether you decide to go with the traditional wood handled Okapi machete or one of their over-molded plastic grips you can't go wrong. Made of tough 1055 high carbon steel and heat treated to give you a tough blade with a long-working edge. The steel is soft enough to be easily sharpened in the field as needed. Many styles and lengths of machete are available as well as purpose built agricultural tools.

**Casström**

**Sweden**

*Lapland Knife Company*

## Swedish Forest Knife

Casström has established a name for itself in Europe and the UK over the last several years putting their unique spin on the traditional Scandinavian bushcraft knife in innovative ways. Speaking to these creative features David Cassini Bäckström, owner of Casström, says "Improved functionality or durability is the main aim, however all the products need to look good also. The style is traditional whilst we seek to innovate the way our knives feel, are carried or the material combinations if necessary. Not everything traditional is functional, this is where the thinking cap goes on and we come up with new ideas."

Handle Length: 4 7/8"  
Weight: 7oz

Casstrom's **No10 Swedish Forest Knife (SFK)** is built as a multipurpose knife for hunting, bushcraft and general use in the great outdoors. The blade is 3 7/8" long and made using 3.8mm thick Austrian made O2 high carbon tool steel (Böhler K720) or Sandvik Stainless 14C28N heat treated to achieve a hardness of 58-60 HRC.

The No 10 is available in Flat or Scandi blade grinds. Flat grind is ideal for general use and especially those that may do extensive food prep or cleaning and skinning game. The Scandi grind is just the thing for woodcraft tasks and hard use camp duties.

The handle is available in Classic Oak, Curly Maple, Bubinga, Green and Black Canvas Micarta treated with a traditional Scandinavian linseed oil based varnish. There are black liners between the handle scales and steel to enhance durability over time. Each knife comes with a sturdy welted sheath made from 3mm vegetable tanned full-grain leather. The sheath features an extra wide belt loop, a fluid draining hole and a lanyard hole. Where indicated, a matching Firesteel is included with a loop sewn into the sheath for carrying.

NEW

**Woodsman**, a new bushcraft knife from Casström! A classic wilderness knife designed by custom knife maker Roger Harrington, England. Proper full-tang knife with a blade measuring ~ 3 1/2" long, straight and fairly round handle made to suit both large and small hands. The leather cord for the handle and a strong deep pocket leather sheath with matching firesteel is included.

The blade is made of ~ 4mm thick Böhler K720 high carbon tool steel to make the blade extremely durable for heavy use such as log-splitting, or so-called "batoning" without making the knife too heavy or uncomfortable to carry. The knife has a Scandinavian grind to make it very robust at the same time easy to carve wood and simple to sharpen on a small flat whetstone/sharpener in the forest. The knife is an exceptional all-round tool for field use.

**Woodsman - K720/Scandi**  
**Curly Birch/Firesteel (KS10824)**  
**Bog Oak/Firesteel (KS10829)**  
MSRP: \$230

Overall: 8"  
Blade Length: 3 1/2"  
Handle Length: 4 1/2"  
Weight: 5.5oz  
Blade Steel: K720

See Page 20 for Casstrom's hunting knives!

This is a nice **firestriker steel** made in the Swedish part of Lapland using traditional natural materials for the handle. A firestriker steel is an essential component of any bushcraft or survival kit and this firestriker comes with real character. A stretch material string/lanyard with a striker plate looped through a hole in the handle is included.

**Swedish Firesteel**  
**Curly Birch** (OS12203)  
 MSRP: \$35  
**Bubinga** (OS12205)  
**Oak** (OS12204)  
 MSRP: \$30

**Bushcraft sheath** with a firesteel loop for the Casström No.10 Swedish Forest Knife (pg41). The loop fits Army size Firesteels above (approx. 9.5mm diameter). It is a sturdy welted sheath construction made from 3mm vegetable tanned full-grain leather. The sheath features an extra wide belt loop, a fluid draining hole and a lanyard hole.

**No.10 Bushcraft Sheath + FireSteel Loop Holder**  
**Black** (OS13021)  
**Cognac** (OS13011)  
 MSRP: \$40

Casström's **No.3 Dangler** is an ingenious accessory to let your knife hang further down from the waist, dangle freely so that you can move easily and make handling on and off the belt smoother. We have also designed the D-ring as a carabiner and thus opened up many new features and applications. Without having to open your belt you can easily move the knife to your backpack, loan it to a friend or just quickly take it off if you are approaching a populated area. Note that the 8mm thick Aluminum D-ring surpassed 400kg breaking strength but should not be used for climbing since a fall can create forces that exceed 400kg even if the person is not heavy. The belt loop is made of sturdy 3mm thick vegetable tanned cowhide available in Cognac Brown, Black or Dark brown. The loop can take belts with a width up to 2 1/4". The Dangler's D-ring will take knife sheaths with a belt loop up to 1 3/8" wide.

**Carabiner Dangler**  
**Antique Brass** (OS10110)  
**Silver** (OS10111)  
 MSRP: \$12.50

**No.3 Carabiner Dangler with Belt Loop**  
**Black** (OS10102)  
**Cognac** (OS10101)  
**Dark Brown** (OS10103)  
 MSRP: \$30

These pouches are for every-day-carry of folding knives, multi-tool knife, flashlight and other accessories on a belt or MOLLE-compatible product such as Kizlyar Supreme Tactical Echelon and Outdoor Series knives as well as backpacks and webbing systems. No additional straps are required – Kizlyar Supreme's smart strap installed on the pouch can both attach to belt and MOLLE easily. AMP 1 and 2 have rigid inserts and AMP3 has elastic sides for a number of possible items. Made of tough Ballistic Nylon.

**Thigh Belt TB1**  
**Black (OK0194)**  
**Camo (OK0197)**  
MSRP: \$20

Length: 30" (77mm)

Compatible with MOLLE sheaths of Kizlyar Supreme and will be a great addition to your knife to reduce shaking of the knife against user's thigh when running, jumping or walking. The belt is made of high quality Ballistic Nylon and features one of the most reliable fasteners from UTX Flex with safety lock against random opening.

The belt is supplied with extra length of around 100 cm and would fit even Arnold Schwarzenegger's leg in his prime years (30" or 77 cm) with plenty of clothing on top, to allow tightening over different seasonal clothing, so just fold or cut unnecessary length.
